By airplane
Freiburg is just under one hour away by car from the nearest airport Basel/Mulhouse/Freiburg which is located in France but with a special border and road connection to Switzerland. The next nearest airport is Baden-Baden/Karlsruhe about one hour away. This airport is very small and mainly served by low cost airlines and charters. Zürich international airport (Switzerland) is only one and a half hours away by car or two hours by train and Frankfurt/Main international airport is also two hours away by direct train. If you arrive at the Basel/Mulhouse Airport please exit towards France (not Switzerland!). At the terminal building you can get a bus (Airport bus) direct to Freiburg, (frequency every 1 ½ hours; travel time one hour). It takes you to the Freiburg train station ("Hauptbahnhof"). Once in Freiburg, follow the instructions for travel by train.
