Press Releases

Prof. Aktories, Folding poisons, September 2018, [LINK]

Dr. Akhtar, Women in Science, Turning points, Nature, August 2018, [LINK]

Prof. Kraft, Tiny Helpers that Clean Cells, August 2018, [LINK]

Prof. Weber, Biological signalling processes in intelligent materials, July 2018, [LINK]

Prof. Driever, Shining new light on the pineal gland, July 2018, [LINK]

Prof. Reth elected to National Academy of Sciences, May 2018, [LINK]

Prof. Bartos, Marlene Bartos receives ERC Advanced Grant, April 2018, [LINK]

Prof. Einsle, On the Track of Nitrogenase, March 2018, [LINK]

Prof. Reski, How to target a gene, March 2018, [LINK]

Prof. Zeiser, Erfolgreiche Kombinations-Therapie bei aggressiver Leukämie, February 2018, [LINK]
(in German only)

**Prof. Warscheid**, Nano-switches in the cell, February 2018, [LINK]

**Prof. Pfanner**, Top Research Grant for Studies on Cellular Power Plants, February 2018, [LINK]

**Prof. Wiedmann**, **Prof. Pfanner**, **Prof. Hunte**, Energy supply channels, January 2018, [LINK]

**Prof. Warscheid**, Opening the cavity floodgates, January 2018, [LINK]

**Prof. Albers**, Incentive to Move, January 2018, [LINK]

**Prof. Hiltbrunner**, How plants see light, January 2018, [LINK]

**Prof. Andrade**, Microbial signal recognition stems from existing building blocks, January 2018, [LINK]

**Dr. Arnold** receives Heisenberg Professorship, December 2017, [LINK]

**Prof. Reth**: Honorary Medal for Michael Reth, November 2017, [LINK]

**Prof. Bartos** et al, Rhythm of memory, October 2017, [LINK]
Prof. Reski et al, Building new moss factories, October 2017, [LINK](#)

SGBM/BIOSS Symposium: Ten years of excellence, October 2017, [LINK](#)

Prof. Borner et al, Prize money for medical ethics training, October 2017, [LINK](#)

Prof. Schamel et al, New receptor found on scavenger cells, August 2017, [LINK](#)

Prof. Meisinger et al, A Map of the cell's power station, August 2017, [LINK](#)

Dr. Minguet, Prof. Reth et al, How protein islands form, August 2017, [LINK](#)

Prof. Hennig et al, In the test tube instead of under the knife, August 2017, [LINK](#)

Prof. Einsle, On the path to vitamin A in rice, July 2017, [LINK](#)

Prof. Weber et al, Personalize your medication dosages, July 2017, [LINK](#)

Prof. Einsle, On the way to a biological alternative, July 2017, [LINK](#)

Prof. Warscheid, Prof. Pfanner, Prof. Wiedemann, Discovering, counting, cataloguing proteins, June 2017, [LINK](#)

Prof. Reth, Flipping the switch to stop tumor development, June 2017, [LINK](#)
Prof. Baumeister, Tumor induction from a distance, June 2017, [LINK]

Prof. Reski, Moss saves moorlands, May 2017, [LINK]

Dr. Brummer, Researchers Discover a Potential New Target for Cancer Treatment, May 2017, [LINK]

Prof. Warscheid, Closing the Gate to Mitochondria, May 2017, [LINK]

Prof. Hofmann, No sugar coating, but sweet nonetheless, April 2017, [LINK]

Prof. Reski, Ohne Moos nix Mensch, April 2017, [LINK] (German version only)

Prof. Reski, The Protective Layer of Prehistoric Land Plants, March 2017, [LINK]

Prof. Diester, Traffic Light in the Brain, February 2017, [LINK]

Prof. Koch, The role of the tunnel, January 2017, [LINK]

Prof. Weber, Cancer Medications Learn to Hide, January 2017, [LINK]

Prof. Driever, Sensory Stimuli Control Dopamine in the Brain, January 2017, [LINK]
Prof. Reski, Survival Artists in the Antarctic, January 2017, [LINK]

Prof. Warscheid, How Complex Cells Developed, December 2016, [LINK]

Prof. Reski, Biologists Discover Origin of Stomata, November 2016, [LINK]

Prof. Hiltbrunner, How Plants Measure Temperature, November 2016, [LINK]

Prof. Weber, Personalized antibiotic treatment, November 2016, [LINK]

Prof. Pfanner, Protein with Multiple Duties, October 2016, [LINK]

Prof. Aktories, How Toxins Activate Cellular Guides, July 2016, [LINK]

Dr. Pyrolowakis, Freiburg Biologists Explain Function of Pentagone, June 2016, [LINK]

Dr. Brummer, Halbach et al, Fighting Resistant Blood Cancer Cells, June 2016, [LINK]

Prof. Meisinger et al., New Import Pathway into the Cell's Powerhouses, September 2015, [LINK]

Prof. Reth et al., A glimpse into the nanoworld of lymphocyte cell membranes, September 2015, [LINK]
Prof. Warscheid et al., Traffic jam in the cell, August 2015, [LINK]

Prof. Aktories et al., Toxin from Salmonid Fish has Potential to Treat Cancer, July 2015, [LINK]

Prof. Boll et al., Enzym knackt stabile aromatische Verbindungen (only in German), July 2015, [LINK]

Prof. Reinheckel et al., How cancer cells avoid shutdown, July 2015, [LINK]

Dr. Wiedemann et al., Protein-Export aus den Zellkraftwerken (only in German), June 2015, [LINK]

Prof. Aktories et al., Molecular Docking Site of a Bacterial Toxin Identified, June 2015, [LINK]

Dr. Becker, Prof. Warscheid et al., Molecular Chaperones Help with Folding, May 2015, [LINK]

Prof. Martin van der Laan, Building Scaffolds in the Cell's Power Stations, May 2015, [LINK]

Prof. Marlene Bartos, Genetic Basis of Mental Illnesses, May 2015, [LINK]

Jun-Prof. Winfried Römer, Sugar for synthetic cells, March 2015, [LINK]
Dr. Miriam Erlacher receives ERC Starting Grant, February 2015, [LINK](#)

Prof. Oliver Einsle, Less sulfite in wine, February 2015, [LINK](#)

Prof. Marlene Bartos, No More Neuronal Gibberish, January 2015, [LINK](#)

**Archive**

2014 - 2013 - 2012 - 2011 - 2010 - 2008/09

**Audio Podcast**

SGBM doctoral fellow, Michael Strüber, participates in the 64th Lindau Nobel Laureate Meeting

**Interview**
Video Podcast

Protein Team Produces Molecular Barrels
Researchers show that two protein machineries collaborate on the development of barrel structures in the mitochondria

//

Guest Speaker Seminar on December 8, 2009
Prof. Dr. Gottfried Schatz, Biozentrum Basel: "What it takes to succeed in science"

//

Guest Speaker Seminar on October 15, 2009
Prof. Dr. Thomas Junker, University of Tübingen "Creationism and Intelligent Design: Who is afraid of Darwinian Evolution?"

//

1st Annual PhD Retreat on September 11-13, 2009
Yuri Lazebnik, Cold Spring Harbor Laboratory, USA "Can a biologist fix a radio? - Or, what I learned while studying apoptosis"

//
1st Annual PhD Retreat on September 11-13, 2009
Karl Hofbauer, Biozentrum, University of Basel, Switzerland
"Industry and academia: bridging the gap"

Video on SGBM commissioned by the German Research Foundation (DFG)
