Press Releases

Prof. Bartos, Marlene Bartos receives ERC Advanced Grant, April 2018, [LINK](#)

Prof. Einsle, On the Track of Nitrogenase, March 2018, [LINK](#)

Prof. Reski, How to target a gene, March 2018, [LINK](#)

Prof. Zeiser, Erfolgreiche Kombinations-Therapie bei aggressiver Leukämie, February 2018, [LINK](#)
(in German only)

Prof. Warscheid, Nano-switches in the cell, February 2018, [LINK](#)

Prof. Pfanner, Top Research Grant for Studies on Cellular Power Plants, February 2018, [LINK](#)

Prof. Wiedmann, Prof. Pfanner, Prof. Hunte, Energy supply channels, January 2018, [LINK](#)

Prof. Warscheid, Opening the cavity floodgates, January 2018, [LINK](#)

Prof. Albers, Incentive to Move, January 2018, [LINK](#)

Prof. Hiltbrunner, How plants see light, January 2018, [LINK](#)
Prof. Andrade, Microbial signal recognition stems from existing building blocks, January 2018, [LINK]

Dr. Arnold receives Heisenberg Professorship, December 2017, [LINK]

Prof. Reth: Honorary Medal for Michael Reth, November 2017, [LINK]

Prof. Bartos et al, Rhythm of memory, October 2017, [LINK]

Prof. Reski et al, Building new moss factories, October 2017, [LINK]

SGBM/BIOSS Symposium: Ten years of excellence, October 2017, [LINK]

Prof. Borner et al, Prize money for medical ethics training, October 2017, [LINK]

Prof. Schamel et al, New receptor found on scavenger cells, August 2017, [LINK]

Prof. Meisinger et al, A Map of the cell’s power station, August 2017, [LINK]

Dr. Minguet, Prof. Reth et al, How protein islands form, August 2017, [LINK]

Prof. Hennig et al, In the test tube instead of under the knife, August 2017, [LINK]
Prof. Einsle, On the path to vitamin A in rice, July 2017, [LINK](#)

Prof. Weber et al, Personalize your medication dosages, July 2017, [LINK](#)

Prof. Einsle, On the way to a biological alternative, July 2017, [LINK](#)

Prof. Warscheid, Prof. Pfanner, Prof. Wiedemann, Discovering, counting, cataloguing proteins, June 2017, [LINK](#)

Prof. Reth, Flipping the switch to stop tumor development, June 2017, [LINK](#)

Prof. Baumeister, Tumor induction from a distance, June 2017, [LINK](#)

Prof. Reski, Moss saves moorlands, May 2017, [LINK](#)

Dr. Brummer, Researchers Discover a Potential New Target for Cancer Treatment, May 2017, [LINK](#)

Prof. Warscheid, Closing the Gate to Mitochondria, May 2017, [LINK](#)

Prof. Hofmann, No sugar coating, but sweet nonetheless, April 2017, [LINK](#)

Prof. Reski, Ohne Moos nix Mensch, April 2017, [LINK](#) (German version only)
Prof. Reski, The Protective Layer of Prehistoric Land Plants, March 2017, LINK

Prof. Diester, Traffic Light in the Brain, February 2017, LINK

Prof. Koch, The role of the tunnel, January 2017, LINK

Prof. Weber, Cancer Medications Learn to Hide, January 2017, LINK

Prof. Driever, Sensory Stimuli Control Dopamine in the Brain, January 2017, LINK

Prof. Reski, Survival Artists in the Antarctic, January 2017, LINK

Prof. Warscheid, How Complex Cells Developed, December 2016, LINK

Prof. Reski, Biologists Discover Origin of Stomata, November 2016, LINK

Prof. Hiltbrunner, How Plants Measure Temperature, November 2016, LINK

Prof. Weber, Personalized antibiotic treatment, November 2016, LINK

Prof. Pfanner, Protein with Multiple Duties, October 2016, LINK

Prof. Aktories, How Toxins Activate Cellular Guides, July 2016, LINK
Dr. Pyroloewakis, Freiburg Biologists Explain Function of Pentagone, June 2016, LINK

Dr. Brummer, Halbach et al, Fighting Resistant Blood Cancer Cells, June 2016, LINK

Prof. Meisinger et al., New Import Pathway into the Cell’s Powerhouses, September 2015, LINK

Prof. Reth et al., A glimpse into the nanoworld of lymphocyte cell membranes, September 2015, LINK

Prof. Warscheid et al., Traffic jam in the cell, August 2015, LINK

Prof. Aktories et al., Toxin from Salmonid Fish has Potential to Treat Cancer, July 2015, LINK

Prof. Boll et al., Enzym knackt stabile aromatische Verbindungen (only in German), July 2015, LINK

Prof. Reinheckel et al., How cancer cells avoid shutdown, July 2015, LINK

Dr. Wiedemann et al., Protein-Export aus den Zellkraftwerken (only in German), June 2015, LINK

Prof. Aktories et al., Molecular Docking Site of a Bacterial Toxin Identified, June 2015, LINK
Dr. Becker, **Prof. Warscheid** et al., Molecular Chaperones Help with Folding, May 2015, [LINK](#)

**Prof. Martin van der Laan**, Building Scaffolds in the Cell’s Power Stations, May 2015, [LINK](#)

**Prof. Marlene Bartos**, Genetic Basis of Mental Illnesses, May 2015, [LINK](#)

**Jun-Prof. Winfried Römer**, Sugar for synthetic cells, March 2015, [LINK](#)

**Dr. Miriam Erlacher** receives ERC Starting Grant, February 2015, [LINK](#)

**Prof. Oliver Einsle**, Less sulfite in wine, February 2015, [LINK](#)

**Prof. Marlene Bartos**, No More Neuronal Gibberish, January 2015, [LINK](#)

**Archive**

2014 - 2013 - 2012 - 2011 - 2010 - 2008/09

**Audio Podcast**

SGBM doctoral fellow, **Michael Strüber**, participates in the 64th Lindau Nobel Laureate Meeting

**Interview**
Protein Team Produces Molecular Barrels
Researchers show that two protein machineries collaborate on the development of barrel structures in the mitochondria

Guest Speaker Seminar on December 8, 2009
Prof. Dr. Gottfried Schatz, Biozentrum Basel: "What it takes to succeed in science"

Guest Speaker Seminar on October 15, 2009
Prof. Dr. Thomas Junker, University of Tübingen "Creationism and Intelligent Design: Who is afraid of Darwinian Evolution?"

1st Annual PhD Retreat on September 11-13, 2009
Yuri Lazebnik, Cold Spring Harbor Laboratory, USA "Can a biologist fix a radio? - Or, what I learned while studying apoptosis"
1st Annual PhD Retreat on September 11-13, 2009
Karl Hofbauer, Biozentrum, University of Basel, Switzerland
"Industry and academia: bridging the gap"

Video on SGBM commissioned by the German Research Foundation (DFG)
