

Press Releases 2010

Markus Mordstein is the First Salome Gluecksohn-Waelsch Prize Laureate, December 2010, [LINK](#)

Prof. Jens Timmer receives a Hector Fellowship by the Hector Foundation II, December 2010, [LINK](#)

Prof. Michael Reth – Immunobiological discoveries that meet resistance, December 2010, [LINK](#)

Prof. Ralf Reski: No Phenylketonuria in the Moss Physcomitrella patens, December 2010, [LINK](#)

Prof. Ad Aertsen asks "Do "traffic lights" in the brain direct our actions", November 2010, [LINK](#)

Prof. Wilfried Weber working on Cellular Circuits ([LINK](#)) has been awarded the ERC Grant by the European Research Council, November 2010, [LINK](#)

SGBM Session at BIOSs First International Symposium, September 2010, Conference Review [LINK](#)

Prof. Michael Reth: "Rebuilding immunoreceptors reveals their mode of activation", September 2010, [LINK](#)

Prof. Ad Aertsen on "Unravelling the code of the brain", August 2010 [LINK](#)

Prof. Ralf Reski on "Medicine from Moss", July 2010 [LINK](#)

PD Dr. Hassan Jumaa/Rudolf Übelhart found a "Surprising solution to an old problem", July 2010 [LINK](#)

Prof. Ad Aertsen on the Bernstein Center Freiburg, July 2010 [LINK](#)

Prof. Carola Hunte (BIOSs) on "Nanomachines in the powerhouse of the cell", July 2010 [LINK](#)

Prof. Jens Timmer simulates dynamic processes in the cell, June 2010 [LINK](#)

Science Daily: Dr. Giorgos Pyrowolakis on "Development of Hands and Wings: Protein Pentagone Important", May 2010 [LINK](#)

BioPro Baden-Württemberg: PD Dr. Tobias Huber on "The kidneys – intelligent filtration", May 2010 [LINK](#)

Science Daily on "Stem Cell Networks in Zebrafish" - Prof. Dr. Wolfgang Driever and Prof. Dr. Jens Timmer, March 2010, [LINK](#)

BioPro Baden-Württemberg: [Prof. Hendrik Veelken](#) on "Cancer treatment adapted to individual patient requirements", March 2010 [LINK](#)

BioPro Baden-Württemberg: [Prof. Andreas Diefenbach](#) on "A molecular approach to disease mechanisms", March 2010 [LINK](#)

BioPro Baden-Württemberg: [Dr. Tilmann Brummer](#) on "The complexities of signal transduction", February 2010 [LINK](#)

Azocleantech: "1 Million Euro Grant to Look at Environmental Management of Russia's Oil Producing Regions", February 2010 [LINK](#)

"Micro RNAs make Genes shut up" - German Researchers have discovered a Novel Mechanism for Gene Regulation, January 2010 [LINK](#)
